

# MÁRTON CSIZMAZIA

MEDIOR SOFTWARE DEVELOPER

## ABOUT ME

I am calm and considered when it comes to problem solving. I complete my tasks with great care and I am always ready to join others to achieve the best solution. It is very important to me to express myself in a clear and direct way, while still listen thoroughly and respecting others. My goal is to bring fun and energy to the work and I am open minded to everyone that surrounds me. I am ready to take on any challenges that come to my sight: the harder the task, the bigger the joy when it is completed.

## MY SKILLS

Languages and technologies:

- Google
- Java, Spring Boot
- Javascript, React
- Web languages
- SQL
- Python, Flask

## SPOKEN LANGUAGES

English – Upper Intermediate / Active  
German – Intermediate / Passive

## WORK EXPERIENCE

### Fullstack Developer (Sep 2022 - Jan 2024)

Clario Clinical - Budapest

Creating phone and web apps for pharmacy clinical trials in Waterfall methodology from initial design to UAT, using Java, Spring Boot, NodeJs, React and web languages.

### Fullstack Developer (Dec 2021 - Jul 2022)

Voormedia B.V. - Amsterdam

Maintaining and building various web apps and client data in Agile teams for our clients (e.g. Omron), mostly using Ruby on Rails, React, JS, HTML, CSS, PSQl

### Java Developer (Aug 2020 - Nov 2021)

Deutsche Telekom IT Solutions - Budapest

Maintaining and building company ERP in Agile team with Spring Boot for the customer department, handling incoming API and functionality requests, error resolving

### Thesis research work (2017-2019)

Cyclolab Kft. - Budapest

## EDUCATION

### (2019-2020) Codecool - Software developer bootcamp

Hard skills:

- SCRUM teams, Agile methodology, Python, Web development in Flask with Web Languages, React, REST Api, PSQl databases, Github
- Java EE, Spring Boot, ORM, Data structures, Unit testing, Algorithmisation

Soft skills:

- Teamwork, Active listening, Conflict resolution, Assertive communication, Client presentations, Transparent atmosphere, Leadership, Adaptability

### (2012-2022) Budapest University of Technology and Economics - Bioengineering

Specialized in Advanced biotechnology, Advanced mathematics, Physics and Chemistry courses. Molecular biology, Analytical chemistry, Biochemistry

### (2000-2012) Graduation – Klotildigeti Ward Mária High School

## MY RECENT PERSONAL PROJECTS

### Website for a photographer

<https://www.stellanovak.com/>

Multi platform web app in React, responsivity, mobile view, 100% level page speed improvements and google search optimization

### Saashub

<https://vimeo.com/706885909/2574a3c2b2>

Company tool collector app, Ruby on Rails backend, REST Api, JS frontend, responsivity

### Anki study-cards app

<https://github.com/MartonCsizmazia/ankispringbackend>

A flashcard study app with Spring Boot backend, PSQl & React frontend. Create, edit, and review flashcards with REST Api.

## PROFESSIONAL INTERESTS

My main interest is in frontend development and in algorithmisation problems, but I am comfortable working in backend too. I would like to maintain my previously gained knowledge in Java and Python, but also would like to deepen my knowledge in SQL, data structures and Cloud technologies like AWS.
